HYCB7-63

Miniature Circuit Breaker

Product Feature

- HYCB7-63 Miniature circuit breaker mainly applies to AC 50Hz，Overload and short circuit protection is provided for commercial office buildings, residential buildings and general industrial terminal distribution lines with rated voltage up to 400V and rated current up to 63A, and infrequent conversion operations can also be performed on the lines under normal conditions.
- Meet the standard：GB/T 10963.1、IEC 60898-1
- Main functions: overload protection, short circuit protection, isolation function

Technical Specification

Rated Current (In)：6A/10A/16A/20A/25A/32A/40A/50A/63A

Rated Voltage (Ue): 230V/400V

Working Frequency: 50/60Hz

Tripping Curves: Type C, type D

Breaking Capacity: 6KA

Poles:1P/2P/3P/4P

Mechanical Life: 20000 times

Electrical Life: 10000 times

Operating Ambient Temperature: -35~+70℃

Pollution Level: Level 2

Protection Class: IP20

Shape and installation dimensions
